

2019-2020 After School Enrichment Programs at Rocky Mountain Academy

Mad Science enrichment programs transform laboratory science and STEM into fun, interactive learning experiences for children grades K-5! Our spectacular demonstrations, hands-on activities, and engaging discussions make learning about science fun for kids! Our programs are taught by friendly, engaging and highly-trained staff members who are passionate about sharing their love of science, and every class includes a fun take-home project for students to continue their scientific explorations at home! **Spark Imaginative Learning This School Year!**

Program Information

Class Day: Wednesday

Class Time: 3:15-4:15pm

Program Duration: 8 weeks

Program Dates: 9/11-10/30/2019

Price: \$104 -Save \$5! sign up by 9/4

Grade: K-5th

Skip Dates: None

**Please Register Online at
Colorado.MadScience.Org**

1. Visit "After School Enrichment" on our home page
2. Select "The Schedule" and search for the name of your child's school
3. Click "Select" next to the program you would like to register for
4. Create a parent account and register online! It's easy and takes about 5 minutes!

Coming Fall 2019:

Reactions in Action

Did you know that you are witnessing a chemical reaction when you bake cookies? Or that some of your favorite art supplies were created in a science lab? This innovative after school program will challenge students to explore the practical applications of chemistry in their everyday lives! Stick it to the walls and push the power of tape to the limits as we discover the chemical properties of adhesives! Melt metal with just a splash of water before freezing it with a breath of dry ice. Cook up some Elephant Toothpaste as you explore chemistry in the kitchen -- and much, much more! This program will help students connect with chemistry like never before! Get ready to see some reactions in action!
